

GURSIMRAN KAUR

Graphic & UI/UX Designer

Toronto, ON | (647) 640-7502 | gk.kaugursimran@gmail.com | [portfolio link](#)

UI/UX-focused designer with hands-on experience across Figma prototyping, mobile-first and responsive design, and accessibility (WCAG/AODA) evaluation. Comfortable owning a design end-to-end, from user personas and information architecture through high-fidelity, interactive prototypes, and collaborating with developers to see designs implemented faithfully. Background in visual design tools (Photoshop, CorelDraw) alongside a technical foundation that makes cross-functional design-to-dev handoff smooth.

DESIGN SKILLS

Design & Prototyping: Figma (high-fidelity, interactive prototyping), wireframing, user personas, information architecture, mobile-first & responsive design

Visual Design: Photoshop, CorelDraw, Canva, MS PowerPoint

Accessibility & UX Testing: WCAG 2.0/2.1, AODA compliance, WAVE, AXE, NVDA screen reader, usability & UI testing

Front-End Implementation: HTML/CSS, React.js, Next.js, Tailwind CSS, Bootstrap, translating designs into responsive, useful interfaces

Tools: Git, GitHub, Jira, VS Code, MS Office (Word, Excel, PowerPoint)

EXPERIENCE

Junior Technical Analyst (QA Team) | Ministry of Public and Business Service Delivery and Procurement, Ontario

Sep 2024 – Apr 2025

- Performed accessibility testing on 50+ applications, evaluating and validating WCAG 2.0/2.1 and AODA compliance using WAVE, AXE, and the NVDA screen reader.
- Conducted manual UI and usability testing across a large-scale government system (3,000+ test cases, 100+ user stories), surfacing interface and interaction issues ahead of release.
- Partnered with developers to trace a data-corruption bug to its root cause, presenting findings and interface impact during daily triage sessions — close collaboration between design intent, QA, and engineering.
- Authored and managed 500+ test cases and tracked defect trends in Azure DevOps, directly improving release quality and interface stability.

Volunteer Junior Developer | Block Coders

May 2025 – Apr 2026

- Translated UI designs into responsive, production interfaces using React.js, Next.js, and Tailwind CSS, working closely with design intent for spacing, typography, and component consistency.
- Contributed to responsive front-end development across multiple projects, ensuring layouts held up cleanly across breakpoints and devices.

DESIGN PROJECTS

Libelli — Mobile Bookstore UI/UX Design *Figma · Mobile-first · High-fidelity prototype*

- Designed 16 high-fidelity, mobile-first screens in Figma covering the complete e-commerce journey — browse, search, cart, checkout, and order tracking — grounded in 3 user personas and a full information-architecture sitemap.
- Built an interactive high-fidelity prototype with realistic mobile device frames, consistent design tokens (color, type, spacing), sticky CTAs, and a multi-filter bottom-sheet modal.

Figma prototype: <https://www.figma.com/design/1Ue8LyGsmSom9KtXKnmFyM/Libelli?node-id=0-1&t=LlWgZqPOuK4CqKq-1>

Dippy — Web Platform UI/UX Design *Capstone project · Figma · Desktop-first · Implemented in Next.js*

- Designed a high-fidelity, interactive desktop website prototype in Figma for a full-scale capstone platform, covering complete user flows end-to-end.
- Owned the visual and interaction design system — later implemented in Next.js and adapted into a fully responsive layout for both desktop and mobile.

Figma prototype: <https://www.figma.com/design/wrXfz79WBdYoTDOQT8Sr6b/Dippy-UI-Mock-Ups?node-id=0-1&t=DJLnf6l6D2k2kE4-1>

Museum Explorer — Web Design & Front-End Build *Deployed on Vercel*

- Designed and built a full-stack museum-exploration website with a focus on clean navigation, search, and pagination UX.

EDUCATION

Computer Programming and Analysis — Advanced Diploma (Co-op) | Seneca Polytechnic, Toronto, ON

Sep 2023 – Apr 2026 · GPA: 4.0/4.0, High Honours Graduate

Diploma in Computer Applications | Golden Institution, Rupnagar, Punjab, India

2021 – 2022 · Coursework in Photoshop and CorelDraw
